8. Relationship of the Project to National Policies and Strategies:

8.1 Relationship of project to National Policy Framework

6. Project Objectives:

- 8.1.1 Policy elements of the Framework most relevant to the project
- 8.1.2 Contribution that can be made from the project to each of the above mentioned policy elements
- **8.2 Relationship to the Sectoral Master Plan** (of the Ministry, sub-sector or the sector)
- 8.2.1 Details of the relevant sectoral master plan approved by the Cabinet of Ministers
- 8.2.2. Has the project been included as a high priority project to the master plan? (Yes/No). If not, reasons for non-inclusion and submission of the project proposal

8.2.3 Has the project been included as a project to the master plan? (Yes/No).	If not,	reasons for
non-inclusion and submission of the project proposal		

8.3. What is the sector strategy relevant to the project?

9. Coordination with Stakeholders and Partners for Implementation of the Project:

Name of the agency	Nature of Intervention	Current status of intervention	Does the proposed project include this development activity? (Yes/No)
Stakeholders			
Donates and			
Partners			

Stakeholders - Individuals, people, organizations or groups who can influence the implementation of the Project or achievement of its result. Stakeholders may include: Project clients and non-beneficiaries from the target group, those who can influence the decisions of the Project, project/ministry staff associations; those with an interest in the Project (advocacy group, central agencies); and those who are adversely or unintentionally affected by the Project.

Partner: The partner is the parties who join the executor in implementing the Project. The partners often undertaken some components of the Project. E.g. Ministry of Health (MoH) in a Rural Water Supply Project where MoH implements the health and hygienic education component of the Project.

10. Project Impacts, Outcomes and Outputs/ Results Framework of the Project/ Performance Framework of the Project:

10.1 Project Impacts

Economic	ex:- No. of Jobs created/ Export Import volume/ increase in production / foreign exchange savings
Environment	ex:- Emission reduction
Social	ex:-Poverty reduction/increase of household income

10.2 Project Outcomes

11. Aligning the project objective/s with the Relevant Sustainable Development Goal/s

	Sustainable	Relevance to the SDG		If directly related,	Expected contribution
Sustainable Development Goal/s	Development Target/s	Directly related	Indirectly related	related, measurable indicator/s	to the achievement (%.)

12. Potential Negative Impact on Socio Economic Activities and Environment by the Project

Items	Yes	No	Items	Yes	No
Residences			Rivers/ Streams		
Schools			Lagoons		
Hospitals			Wetlands		
Build-up areas			Mangrove		
Home-gardens			Costal Scrub		
Paddy fields/ farmlands			Watersheds/ Catchment areas		
Other agricultural lands			Scrub forest		
Archaeological sites			Other (Specify)		
Religious places					

Note: If "Yes" please provide measures that project plans to implement to mitigate these negative impacts

13. Risk and Assumptions:

- i. What are major assumptions?
- ii. What are the risks and mitigation measures?
- iii. Are these mitigation measures included in project activities? (Please elaborate).

14. Mainstreaming the Disaster Risk Reduction (DRR) in to the Project:

- i. What are the identified disaster risks, if any?
- ii. What are the required mitigation activities/resilience features?
- iii. Additional cost required to accommodate the above-mentioned mitigation measures/resilient features (Rs.mn).
- iv. What are the socio-economic benefits to be achieved through mainstreaming the DRR?

15. Project Monitoring and Evaluation Plan:
